

Gausium Phantas compact cleaning robot

Phantas

A small cleaning robot 61.9 cm tall and 65 kg in weight, with a 46.5 cm cleaning width. Its size lets it work among tables and in narrow corridors, with a runtime of 4.5 hours.

Key specifications

Tank	11.5 l
Cleaning width	46.5 cm
Throughput	700 m ² /h
Runtime	4.5 h
Height	61.9 cm
Navigation	LiDAR

From the datasheet

Cleaning width	46.5 cm
Tanks	11.5 l clean, 10.5 l waste water
Throughput	350 to 700 m ² /h
Height and weight	61.9 cm, 65 kg
Navigation	2D LiDAR, 3D depth cameras, RGB camera
Dust mopping	up to 10 h

Values are taken from the manufacturer's datasheet and apply to the standard version. The final configuration, options and lead time are confirmed in the quote.

What it does for you

The Phantas is compact: 61.9 cm tall and 65 kg in weight. The clean water tank holds 11.5 litres, the waste tank 10.5. Practical throughput runs from 350 to 700 m² per hour, depending on the mode. Navigation is built on 2D LiDAR, 3D depth cameras and an RGB camera.

Daytime cleaning among guests

Its low height and quiet running let the Phantas work while the space is in use. In a cafe or a hotel lobby it passes between tables and chair legs, without stopping and without moving the furniture.

Dust mopping office floors

In dust mopping mode the runtime reaches 10 hours, enough for several office floors in one cycle. The robot recognises its zones and returns to charge by itself.
