

Mammotion LUBA 2 AWD 5000 robotic mower

LUBA 2 AWD 5000

An all-wheel-drive mower for lawns up to 5000 m². A slope of up to 80%, that is 38.6°, and a 40 cm cutting width make it a choice for steep and uneven plots.

Key specifications

Working area	5,000 m ²
Max slope	80 %
Cutting width	40 cm
Navigation	RTK GPS

From the datasheet

Working area	up to 5000 m ²
Drive	all four wheels
Slope	up to 80%, that is 38.6°
Cutting width	40 cm
Cutting height	25 to 70 mm

Values are taken from the manufacturer's datasheet and apply to the standard version. The final configuration, options and lead time are confirmed in the quote.

What it does for you

The LUBA 2 AWD 5000 drives all four wheels, so it climbs slopes of up to 80%, that is 38.6°. The working area is up to 5000 m², cutting width 40 cm, and cutting height adjustable from 25 to 70 mm.

Steep and terraced plots

On banks beside a vineyard, a terrace or an embankment, driven wheels on both axles keep their grip on wet grass as well. The wide 40 cm cut reduces the number of passes over the same area.

Lawns without a boundary wire

Position is fixed by an RTK antenna or a network RTK correction, with obstacles recognised by camera. Boundaries and zones are drawn in the app.

Mammotion publishes neither a running time nor a charging time for this model, so those two items are not given here.
