

OrionStar CleaniBot C5 floor scrubbing robot

CleaniBot C5

A floor scrubber with 45 litre tanks and a throughput of up to 1980 m² per hour. Cleaning width is 55 cm, weight 170 kg, and charging takes an hour and a half.

Key specifications

Tank	45 l
Cleaning width	55 cm
Throughput	1,980 m ² /h
Runtime	3 h
Height	113 cm

From the datasheet

Cleaning width	55 cm
Tanks	45 l clean, 45 l waste water
Station tank	8 l
Throughput	up to 1980 m ² /h
Height and weight	113 cm, 170 kg
Charging and mopping	1.5 h charge, up to 8 h mopping

Values are taken from the manufacturer's datasheet and apply to the standard version. The final configuration, options and lead time are confirmed in the quote.

What it does for you

The CleaniBot C5 stands 113 cm tall and weighs 170 kg. The clean and waste water tanks hold 45 litres each, and the station adds another 8 litres. Throughput reaches 1980 m² per hour, runtime is three hours and charging takes an hour and a half.

Cleaning large areas

Short charging and large tanks mean cycles follow one another without long breaks. At 4.32 km/h the robot crosses a hall or a warehouse aisle in a single pass.

Dust mopping between shifts

In mopping mode the runtime reaches 8 hours, so the same machine is also used for daily upkeep between wet cycles.

OrionStar publishes no navigation type for this model, so none is stated here.
