

PUDU CC1 Pro cleaning robot

CC1 Pro

A cleaning robot with a 50 cm cleaning width, 15 litre tanks and five hours of running time. At 69.5 cm tall it passes under counters and between rows of tables.

Key specifications

Tank	15 l
Cleaning width	50 cm
Throughput	1,000 m ² /h
Runtime	5 h
Height	69.5 cm
Navigation	LiDAR

From the datasheet

Cleaning width	50 cm
Tanks	15 l clean, 15 l waste water
Throughput	700 to 1000 m ² /h full coverage
Spot cleaning	1500 to 3000 m ² /h

Height and weight

69.5 cm, 75 kg

Charging and quiet mopping

3 h charge, up to 9 h mopping

Values are taken from the manufacturer's datasheet and apply to the standard version. The final configuration, options and lead time are confirmed in the quote.

What it does for you

The CC1 Pro weighs 75 kg and stands 69.5 cm tall. The clean and waste water tanks hold 15 litres each, and charging takes three hours. In full coverage the throughput is 700 to 1000 m² per hour, and in spot cleaning 1500 to 3000 m² per hour. Navigation relies on LiDAR.

Cleaning a hospitality floor

PUDU comes from hospitality and the CC1 Pro is built for the same space: it passes between tables, goes around guests and works without staff watching it through the shift.

Quiet mopping during the day

In silent mopping mode the robot runs up to 9 hours, so it keeps a lobby or a corridor in order through the working day without disturbing guests.
